MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Jefferson County Emergency Communications District, we offer readers of the District's financial statement this narrative overview and analysis of the District's performance during the fiscal year ending June 30, 2021, and June 30, 2020. Please read it in conjunction with the District's financial statements, which follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report includes this management's discussion and analysis report, the independent auditor's report and the basic financial statements of the District. The financial statements also include notes that explain in more detail some of the information in the financial statements.

REQUIRED FINANCIAL STATEMENTS

The financial statements of the District report information of the District using accounting methods similar to those used by private sector companies. These statements offer both short-term and long-term financial information about its activities. The statement of the net position includes all the District's assets and liabilities and provides information about where the District has invested its resources (assets) and the obligations to the District's creditors (liabilities).

All of the current year's revenues and expenses are accounted for in the Statement of Revenues, Expenses, and Changes in Net Position. This statement measures the success of the District's operations over the past year and can be used to determine whether the District has successfully recovered all its costs through surcharges and fees.

The final required financial statement is the Statement of Cash Flows. The statement reports cash receipts, cash payments, and net changes in cash resulting from operating, investing, and financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in the cash balance during the reporting period.

FINANCIAL ANALYSIS OF THE DISTRICT

One of the most important questions asked about the District's finances is: "Is the District better off or worse off as result of this year's activities?" The Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position reports information about the net position of the District and the changes in it. One can think of the District's net position – the difference between assets and liabilities – as one way to measure financial health or financial position. Over time, increases or decreases in the District's net position is one indicator of whether its financial health is improving or deteriorating. A summary of the District's net position and changes in it is presented as Table 1 on page 5.

ANALYSIS OF FINANCIAL POSITION AND RESULTS OF OPERATIONS

As can be seen from Table 2 on page 6, the District's net position has increased \$208,564 during the year ended June 30, 2021. Revenues increased by 24.76%. Total expenses increased approximately 7.60%. The administrative staff and employees continue to remain diligent and cost conscious.

For the year ended June 30, 2020, the District's net position decreased approximately \$30,323. Revenues decreased by 3.67%. Total expenses increased approximately 7.06%.

THE DISTRICT'S NET POSITION

The District completed the year ended June 30, 2021, with a net position of \$1,741,346, which is \$208,564 more than the prior year's ending net position of \$1,532,782.

The District completed the year ended June 30, 2020, with a net position of \$1,532,782, which is \$30,323 less than the prior year's ending net position of \$1,563,105.

BUDGETARY HIGHLIGHTS

The District adopts an annual operating budget, which includes proposed expenses and the means for paying these expenses. As conditions change during the year the budget may be amended to prevent budget overruns.

All telephone surcharge revenue is now remitted by the dial tone providers directly to the State. A Base Funding amount was established by the TECB for each of Tennessee's one hundred (100) ECDs and is based upon residential and business line-counts in 2012. Jefferson County's Base Funding was set at \$702,786 for June 30, 2021, and \$702,786 for June 30, 2020.

Interest income deposits were above expectations by \$200 for the year ended June 30, 2021, and above expectations by \$283 for the year ended June 30, 2020.

Total expenditures were \$197,911 less than budgeted with budget categories remaining in line for the year ended June 30, 2021.

Total expenditures were \$49,966 less than budgeted with budget categories remaining in line for the year ended June 30, 2020.

CAPITAL ASSETS

The District's investments in capital assets amount to \$1,054,000 with accumulated depreciation of \$780,283 for the year ended June 30, 2021. Capital assets include office equipment and furniture, operating equipment, communications equipment, computer software, and vehicle(s).

The District's investment in capital assets amounted to \$1,041,395 with accumulated depreciation of \$784,568 for the year ended June 30, 2020. Capital assets include office equipment and furniture, operating equipment, communications equipment, computer software, and vehicle(s).

ECONOMIC FACTORS AND FUTURE NEEDS

Prior to 2015, the main economic factor which faced the Jefferson County Emergency Communications District had been the continued fluctuation in revenue generated from landline, wireless, and VOIP telephones. The '911 Funding Modernization and IP Transition Act of 2014' became law on January 1, 2015, and set a state-wide surcharge of \$1.16 for all services (landline, cellular, VoIP, and pre-paid); a surcharge based upon revenue received by ECDs in 2012. This legislation eliminated the State ECB's use of depreciation costs in determining whether or not an ECD is 'financially distressed,' and also eliminated five (5) State ECB funding streams for operational, equipment purchase, and training programs.

The State ECB exercised its option to seek a restoration of the state-wide surcharge to \$1.50 for all services (landline, cellular, VoIP, and pre-paid); a move that required approval of a Joint Resolution of the TN General Assembly. The General Assembly passed the Joint Resolution, and the restored rate went into effect on January 1, 2021. In the meantime, the State ECB approved a measure to make up the one-half fiscal year (from July 1, 2020 – December 31, 2020) additional funding to local ECDs out of their fund balance; a move that transferred \$15 million of local 9-1-1 operations. This also was a factor in staff's decision not to seek additional local funding at this time.

Upgrades and enhancements to the ECD's telephone, dispatching, radio, mapping, logging, and other areas that have been made over the past several years move the ECD closer to the realization of being a next-generation (NG-911) center.

Long-term financial planning for the District will require continued discussions related to the District's operational and administrative staffing needs and the service delivery expectations of our client agencies. Short-term focus will remain on sustaining operations and maintain, to the best of our ability, the quality of dispatch services the public has come to expect. As the ability of more ways to connect 9-1-1 increases, maintaining this quality will be an ever-present challenge. Respectfully,

REQUESTS FOR INFORMATION

One way to measure financial health of a company is to look at its increases or decreases in net position over time. Increases in net position, in general, are signs that a company's financial health is improving. Decreases may indicate that its financial health is deteriorating. However, you will need to also consider non-financial factors such as economic conditions, service growth, and legislative mandates.

Jefferson County Emergency Communications District's total net position increased \$208,564 from last year.

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Jefferson County Emergency Communications District
Jefferson City, Tennessee 37760

Report on the Financial Statements

We have audited the accompanying financial statements of Jefferson County Emergency Communications District, a component unit of Jefferson County, Tennessee, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Jefferson County Emergency Communications District's financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

JAMES W. CRANE, CPA
MIRA J. CRANE, CPA

WHITNEY D. MCGOWAN, CPA

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of Jefferson County Emergency Communications District of Jefferson County, Tennessee, as of June 30, 2021, and the respective changes in financial position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 2 through 6 and the required supplementary information on pages 23 through 25 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Jefferson County Emergency Communications District's basic financial statements as a whole. The schedules listed in the table of contents as supplemental information are presented for purposes of additional analysis and are not a required part of the financial statements.

The schedules listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The Roster of Officials listed on page 1 has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 1, 2021, on our consideration of Jefferson County Emergency Communications District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness

of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Jefferson County Emergency Communications District's internal control over financial reporting and compliance.

JEFFERSON COUNTY EMERGENCY COMMUNICATIONS DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2021

NOTE 1 – NATURE OF THE ORGANIZATION

The District was established by the County for the purpose of enhancing "911" and selective routing services under T.C.A. 7-86-101 through 7-86-117 "Emergency Communications District Law.". The District is a component unit of Jefferson County, Tennessee. The District receives a significant portion of its income from the tax revenues of Jefferson County. Also, Jefferson County's legislative body approves board members and debt issues of Jefferson County Emergency Communications District

The criteria for including organizations as component units within a County's reporting entity, as set forth in Section 2100 of GASB's *Codification of Governmental Accounting and Financial Reporting Standards*, include whether:

- the organization is legally separate (can sue and be sued in its own name)
- the County appoints a voting majority of the organization's board
- the County is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the County
- there is a fiscal dependency by the organization on the County

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

- A. Basis of accounting – Accrual
Revenue is recognized when earned and expenses are recorded when incurred
- B. Fund type – Proprietary
- C. For purposes of the statement of cash flows, the District considered all highly liquid investments with maturities of three months or less when purchased to be cash equivalents
- D. Capital assets and depreciation:
 - 1) 1. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, which range from 5 to 39 years. The District's capitalization threshold is set at \$5,000 per unit cost. Interest costs incurred on financing during the construction or installation period of capital assets are capitalized as part of the cost of the assets. For the year under review, there were no interest costs capitalized.

- 3) The straight-line method of depreciation is used, totaling \$100,162 for the year ended June 30, 2021. Accumulated depreciation was \$780,282 as of June 30, 2021.

E. Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates. The useful lives of the capital assets of the District are such estimates.

F. Measurement focus is a term used to describe “which” transactions are recorded within the financial statements. The proprietary fund is accounted for using the “economic resources” measurement focus. Accordingly, all assets and liabilities (whether current or noncurrent) are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (revenues) and decreases (expenses) in total net position.

Operating revenues in the proprietary fund are those revenues that are generated from the primary operations of the fund. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operating expenses.

Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied. Proprietary funds utilize the accrual basis of accounting, whereby revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2021

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

- G. Budgetary principles - Prior to the beginning of the fiscal year, the Board of Directors adopts an annual budget. All revisions must be approved by the Board. All annual appropriations lapse at fiscal year-end. Budgetary control is at the line-item level. The District prepares its budget on a basis of accounting that differs from accounting principles generally accepted in the United States of America (GAAP). The major difference between the budgetary basis of accounting and GAAP is that encumbrances are recorded as the equivalent of expenditures (budget) as opposed to a reservation of fund balance (GAAP). At June 30, 2021, the District had no encumbrances.
- H. Restricted and unrestricted resources – When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.
- I. Restricted and unrestricted resources – When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.
- J. Pensions – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of Jefferson County Emergency Communications District's participation in the Public Employee Retirement Plan of the Tennessee Consolidated Retirement System (TCRS), and additions to/deductions from Jefferson County Emergency Communications District's fiduciary net position have been determined on the same basis as they are reported by the TCRS for the Public Employee Retirement Plan. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Public Employee Retirement Plan of TCRS. Investments are reported at fair value.

NOTE 3 – DEPOSITS

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Custodial Credit Risk – Deposits – In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. As of June 30, 2021, the District had no exposure to custodial credit risk as its deposits were either insured by the FDIC or collateralized with securities held by the State of Tennessee Bank Collateral Pool as required by state statutes.

NOTE 4 – COMPENSATED ABSENCES

Annual leave

Regular full-time employees accrue one day of vacation per month. After five years of service, employees accrue one and one-half days of vacation per month. Employees on vacation are paid at a regular rate of pay during such leave. Employees may accrue annual vacation leave up to a maximum of the days earned for the prior service year. Unpaid vacation leave totaled \$35,080 for the year ended June 30, 2021.

Sick leave

Sick leave is earned by regular full-time employees at the rate of one day per month. Employees may accumulate sick leave without a maximum. Accumulated sick leave does not vest for payment at termination, however; if the employee retires such accumulated sick leave counts as time of service under the District's participation in the TCRS Pension Plan.

NOTE 5 – PENSION PLAN INFORMATION

General Information about the Pension Plan

Plan Description – Employees of Jefferson County Emergency Communications District are provided a defined benefit pension plan through the Public Employee Retirement Plan, an agent multiple-employer pension plan administered by the TCRS. The TCRS was created by state statute under Tennessee Code Annotated Title 8, Chapters 34-37. The TCRS Board of Trustees is responsible for the proper operation and administration of the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. The TCRS issues a publicly available financial report that can be obtained at www.treasury.tn.gov/Retirement/Boards-and-Governance/Reporting-and-Investment-Policies.

Benefits Provided – Tennessee Code Annotated Title 8, Chapters 34-37 establishes the benefit terms and can be amended only by the Tennessee General Assembly. The chief legislative body may adopt the benefit terms permitted by statute. Members are eligible to retire with an unreduced benefit at age 60 with 5 years of service credit or after 30 years of service credit regardless of age. Benefits are determined by a formula using the member's highest five consecutive year average compensation and the member's service credit. Reduced benefits for early retirement are available at age 55 and vested. Members vest with five years of service credit. Service-related disability benefits are provided regardless of length of service. Five years of service is required for non-service-related disability eligibility. The service related and non-service-related disability benefits are determined in the same manner as a service retirement benefit but are reduced 10 percent and include projected service credits. A variety of death benefits are available under various eligibility criteria.

NOTE 5 – PENSION PLAN INFORMATION (Continued)

Member and beneficiary annuitants are entitled to automatic cost of living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to the 2nd of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at 3 percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the CPI change is between one-half percent and one percent. A member who leaves employment may withdraw their employee contributions, plus any accumulated interest.

Employees Covered by Benefit Terms – At the measurement date of June 30, 2020, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	3
Inactive employees entitled to but not yet receiving benefits	26
Active employees	<u>19</u>
Total Employees	<u>48</u>

Contributions – Contributions for employees are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly. Employees contribute 5 percent of salary. Jefferson County Emergency Communications District makes employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. For the year ended June 30, 2021, the employer contributions for Jefferson County Emergency Communications District was \$51,186 based on a rate 5.81 percent of covered payroll. By law, employer contributions are required to be paid. The TCRS may intercept Jefferson County Emergency Communications District's state shared taxes if required employer contributions are not remitted. The employer's Actuarially Determined Contributions (ADC) and member contributions are expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

Net Pension Liability (Asset)

Pension liabilities (assets) - Jefferson County Emergency Communications District's net pension liability (asset) was measured as of June 30, 2020, and the total pension liability used to calculate net pension liability (asset) was determined by an actuarial valuation as of that date.

Actuarial assumptions – The total pension liability as of the June 30, 2020, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2021

NOTE 5 – PENSION PLAN INFORMATION (Continued)

Inflation	2.5 percent
Salary Increases	Graded salary range from 8.72 to 3.44 percent based on age, including inflation, averaging 4.00 percent
Investment rate of return	7.25 percent, net of pension plan investment expenses, including inflation
Cost of living adjustments	2.25 percent

Mortality rates were based on actual experience including an adjustment for some anticipated improvement.

The actuarial assumptions used in the June 30, 2020, actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2012, through June 30, 2016. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2016, actuarial experience study. A blend of future capital market projections and historical market returns was used in a building-block method in which a best-estimate of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) is developed for each major asset class. These best estimates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.5 percent. The best-estimates of geometric real rates of return and the TCRS investment policy target asset allocation for each major asset class are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return	Target Allocations
U.S. Equity	5.69%	31%
Developed market international equity	5.29%	14%
Emerging market international equity	6.36%	4%
Private equity and strategic lending	5.79%	20%
U.S. fixed income	2.01%	20%
Real estate	4.32%	10%
Short-term securities	0.00%	1%

NOTE 5 – PENSION PLAN INFORMATION (Continued)

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.25 percent based on a blending of the factors described above.

Discount rate – The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current rate and that contributions from Jefferson County Emergency Communications District will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Directors
Jefferson County Emergency Communications District
Jefferson City, Tennessee

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Jefferson County Emergency Communications District, a component unit of Jefferson County, Tennessee, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Jefferson County Emergency Communications District's basic financial statements, and have issued our report thereon dated December 1, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Jefferson County Emergency Communications District's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Jefferson County Emergency Communications District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Jefferson County Emergency Communications District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Jefferson County Emergency Communications District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
